For the prevention and cure o
BILIOUS AND MALIGNANT FEVERS
is recommended
HAHN's ANTI-BILIOUS PILLS

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of person can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age.

They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance: they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficatious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

Fan-sash Making

METAL FAN-SASHES, of various descriptions, will be made by the subscriber, at his shop, lower end of Duke street. The want of a Metal Fan-Sash Manufactory in Alexandria, has hitherto been severely felt by builders and others, who have been compelled to make use of wood, which is neither elegant nor durable. The various forms into which the metal can be shaped have given it a decided superiority, and the difference in the price is very trifling. The subscriber has been at considerable expence in procuring the necessary preparations, and relies on public enterprise for success in the undertaking.

Gentlemen in the country, by sending the dimensions of their sashes, can have them made at the same price as if in town.

Proposals

FOR Publishing by Subscription, and now ready for the press, a series of historical volumes, which when finished will assume the title of

Universal History Americanised;

Or, an historical view of
Europe, Asia, Africa and America,
from the earliest records to the nineteenth century—with a particular reference to the state of society, literature, religion, and form of government in the United States of America.

BY DAVID RAMSAY, M. D.

"Life is so short and time so valuable, that it were happy for us if all great works were reduced to their quintessence." *Sir William Jones.*

PROSPECTUS.

ASIA.

The Asiatic part of this work contains a general view of the antediluvians—of the general deluge—of the re-settlement of the Globe after that great event—of the primitive postdiluvian nations which were formed in Asia, the cradle of the world. Their various ramifications, revolutions, and of the general course of Empire.

AFRICA.

The African part, contains a concise history of Egypt, Carthage, Numidia, Mauritania, Abyssinia, of the Piratical States, and the Hottentots, with a grouped view of its uncivilized settlements.

EUROPE.

The European part, contains the history of Greece and Rome, from their origin to their dissolution—of the various nations which were conquered by them—and of the nations by which the Romans themselves were finally conquered, and of the nations which were formed from the fragments of the Roman Empire, and the various revolutions of the latter, together with a view of the nations which never were subjected to the Romans.

AMERICA

The American part, contains a general history of the Western continent, under the heads of Free, European, and Aboriginal or unconquered America. The first contains a history of the United States, from their first settlement as English Colonies, till the present time.—The second, of all parts dependant on Europe.—And the third, of all that are still owned by the Aborigines.

It is expected that the whole will be comprised in 10 or 12 octavo volumes, of between four and five hundred pages each—to be printed in Philadelphia, on good paper and fair types, for $8 1-3 per volume, in sheep binding, or $4 1-3 Calf Gilt, to be paid for on delivery.

AUTHORITIES.

This work has been in contemplation upwards of 40 years. The project of it was conceived in 1786, on reading the Universal History, then recently edited in 60 volumes, by a society of gentlemen in England. The original idea of extracting the quintessence of that voluminous work, which contained the most complete system of history the world had then seen, has ever since been enlarging and improving by an attentive perusal of the histories written by Robertson, Hume, Gibbon, and other modern authors—of the Asiatic researches—of the works of Sir William Jones, and other learned Orientalists—the publications of intelligent travellers, who, in the course of the last half century have explored almost every region of the Globe. These collectively have thrown a blaze of light on countries comparatively unknown, and on portions, both of ancient and modern history which were confused and obscure at the period when the writers of the Universal History published their work. The arrangement of materials collected from these sources commenced in the year 1780, when, in consequence of the surrender of Charleston to Sir Henry Clinton, the author was suddenly released from a sea of business and sent as a prisoner of war to the British Garrison then in St. Augustine, and there confined for eleven months, without any peculiar employment. Steady progress has been made for the last ten years in correcting and transcribing the work for publication.

UNITED STATES.

The History of the United States is given at full length—that of foreign countries is more or less expended or contracted in proportion to the intrinsic importance of each—its tendency to illustrate portions of Holy Writ—the Greek and Latin Classics—and also in proportion to its connexion with the U. States, or as furnishing useful practical information to its citizens, or as the paternal soil of their ancestors.

The above sketch of the nature and objects of this immense work, which has occupied the attention of the Author for upwards of 40 years, was found among his papers, and is now given to the public in his own words. Since that period, a few chapters have been added by the Reverend SAMUEL STANHOPE SMITH, which brings it down to the close of the last war.

The publication commences with a third impression of the History of the U. States, in three volumes, which is all that has ever appeared. The whole will not be delivered under 15 or 20 months. It is proper to state, that the gentlemen who have the direction of it are neither booksellers nor printers, and receive no pecuniary consideration for their trouble—but are willing to make the necessary advances to carry it into execution provided the sale is warranted by public patronage. The profits arising are to be appropriated for the support and education of his children, four of each sex: to them its success is a matter of deep importance.

SUSAN AND JACK.

The poor man came home, 'twas a cot on the moor,
And his children to welcome him stood at the door:
"Ah, Papa, dear Papa! my sister and I
Ate nothing to-day—but I told her by-and-by,
When the sun was gone down and one hardly could see,
We should fully be feasted with mamma and thee."
As he said it, Jack seized on his father with joy,
Who placed on his knee the affectionate boy;
And two or three kisses with fervor impress'd,
As his child with a heart full of grief he address'd:
"Dear Jack, when I went in the morning away,
I thought to bring something at closing of day;
But I wrought in the snow and the keen biting blast,
And have brought nothing home, but a brown crust at last:
Here, Jack, go divide it with Susan, and share
All your parents, a pitiful portion, can spare."
He took it, and offered his father a part,
But when he said, "No, Jack!" it griev'd him at heart.
Then he offered the piece to his mother but she
Said, "'tis hardly enough for dear Susan and thee."
He threw down the crust, put his hand to his eye,
And burst into tears, but could hardly tell why:
And Susan rejoin'd, "'t would be ten times more sweet,
If her parents would share it and with them would eat."
Then they smiled and they wept and divided their store—
A crust of brown bread was a supper for four.
In the fulness of sorrow they found a relief,
For Susan and Jack were the joy of their grief. OSCAR.

On receiving from Dr. Rush, of Philadelphia, a piece of the tree under which William Penn made his Treaty with the Indians, and which was blown down in 1812, converted to the purpose of an Inkstand.

BY MR. ROSCOE.

From clime to clime, from shore to shore,
The war-fiend rais'd his hateful yell,
And midst the storm that realms deplore,
Penn's honor'd tree of concord fell.

And of that tree, that ne'er again
Shall spring's reviving influence know,
A relic, o'er th' Atlantic main
Was sent—the gift of foe to foe!

But though no more its ample shade
Wave green beneath Columbia's sky,
Though every branch be now decay'd,
And all its scatter'd leaves be dry;

Yet, midst this relic's sainted space,
A health restoring flood shall spring,
In which the angel-form of peace
May stoop to dip her dovelike wing.

So once the staff the prophet bore,
By wondering eyes again was seen
To swell with life through every pore,
And bud afresh with foliage green.

The wither'd branch again shall grow,
Till o'er the earth its shade extend;
And this—the gift of foe to foe—
Become the gift of friend to friend.

THE RETORT COURTEOUS.

Mr. Sergeant Gardener being lame of one leg, and pleading before the late Judge Fortescue, who had little or no nose, the Judge told him, he was afraid that he had but a LAME cause of it. "Oh, my Lord! (said the Sergeant) have but a little patience, and I'll warrant I'll prove every thing as PLAIN as the nose on your face."

ALEXANDRIA:
THURSDAY, APRIL 2, 1818.

FROM OUR CORRESPONDENT AT WASHINGTON.

Wednesday, April 1.

A bill fixing Monday, the 2d of November, for the opening of the next meeting of congress, was yesterday ordered to be engrossed for a third reading, and it is probable will be passed this day.—That this measure is well intended, who is he that can entertain a doubt? but what will be the effect of it? Will it be to take off so much of the session from its end and patch it to its commencement, or to increase the length of the session by one month, thereby afford time for all the business of the session to be done, or only to supply more time for the evomition of words? If the last, heavens! what a cataract of *sound* will fall on the flour of congress!

At the instance of Mr Pitkin the house resolved to appoint a committee to join a committee from the senate to consider and report what part of the business is most necessary to be acted upon before the close of the present session.

The bill making appropriations for carrying on the Cumberland road was under consideration of the house in committee a great part of the day, was reported without amendment, and ordered to be engrossed for a third reading.

Mr. SNOWDEN,

I perceive from a late *interesting* report of the proceedings of the Common Council, that a bill has been reported and lies upon the table, to amend the charter of the town. I am happy to learn that the Common Council possess the power to alter and amend the instrument from which they derive their corporate existence, and trust that the bill which has been reported by their committee will be found worthy of the independent spirit which conceived it.

Amongst other objectionable parts of the charter of the town as it now stands, it is to be hoped that which requires the proceedings of the Common Council to be *published*, will not be overlooked. The knowledge of these proceedings is, generally speaking, of little or no importance to the citizens of the town, and must certainly be of much less value to those who live out of it. To such persons it cannot be very interesting to learn that in the absence of the President of the Common Council of Alexandria Mr. —— was called to the chair, and that after Mr —— had set there for a few minutes, Mr. President appeared, and Mr. —— had to resign his dignity—that the superintendent of police was ordered to remove a nuisance in a street or in a back yard—that a tax of one dollar was remitted to a poor widow who was unable to pay it—or that the sum of 30 dollars was appropriated to the purchase of a corporation bull. There seems to me to be no occasion for stuffing the public prints of the town with such intelligence, to the necessary exclusion of other matters of real interest and importance; and I am sure it would be generally pleasing to your readers both in and out of the town, if the useless and ridiculous custom were abolished. The *laws* enacted by the Common Council ought certainly to be made public, because every citizen of the town is concerned in understanding them; but the common orders and resolutions of Council have no such claim to the public notice, and therefore ought not to be obtruded upon it. With these views, and in the name and behalf of a great majority of your readers, I submit through you, sir, to the Common Council, the propriety and expediency of amending the charter of the town in this respect as well as in others. Understanding that you are *printer* to the corporation, I should not have solicited your agency in this matter, were I not well assured, than an exclusion of the proceedings of the Common Council will enhance the value and increase the patronage of your paper.

I.

THE SEMINOLE WAR

We find in the documents on this subject, recently transmitted by the president to congress, an official annunciation of those circumstances which have preceded and attended the recent movements of our troops in the south. These official papers vary so little in substance from the unofficial accounts, that we do not think it material to publish them, with the exception of the following documents, which reduce to form and certainty the rumors we have heard concerning the instructions to our military authorities respecting the prosecution of the war.

Department of War,
Dec. 16, 1817.

SIR,—On the receipt of this letter, should the Seminole Indians still refuse to make reprenation for their outrages and depredations on the citizens of the United States, it is the wish of the president that you consider yourself at liberty to march across the Florida line, and to attack them within its limits, should it be found necessary, unless they should shelter themselves under a Spanish post. In the last event, you will immediately notify this department

I have the honor to be, &c.
J. C. CALHOUN.

Gen. Edmund P. Gaines,
Fort Scott, Georgia.

Extract of a letter from the secretary of war to major gen Andrew Jackson, at Nashville, Tennessee, dated December 26, 1817.

You will repair, with as little delay as practicable, to Fort Scott, and assume the immediate command of the forces in that quarter of the southern division.

The increasing display of hostile intentions by the Seminole Indians may render it necessary to concentrate all the contiguous disposable force of your division upon that quarter. The regular force now there is about 800 strong, and 1000 militia of the state of Georgia is called into service. General Gaines estimates the strength of the Indians at 2700. Should you be of opinion that our numbers are too small to beat the enemy, you will call on the executives of the adjacent states for such an additional militia force as you may deem requisite.

LATEST FROM ENGLAND

By the arrival this morning of the ship Minerva Smyth, Captain Allen, we have received from our Correspondent in London, London papers to the 4th of February, Dublin to the 30th January, and the New Price Current to the 30th.

Captain Allen is the bearer of despatches from London and Holland to the secretary of state.

One of our London papers contains a very long and interesting account of the loss of the brig Superb, Andrew Haraden master, belonging to Salem, Mass. and bound to Martinique. The captain and crew, after remaining 19 days in a small boat, were picked up by the British brig Cambrain, bound to London, where they arrived in the latter part of January.

HOSTILITY OF SPAIN.

Our readers will see, by the document published this evening, which was received by the way of Baltimore, and furnished us by the kindness of a friend, that the Spaniards have already struck the first blow. The ship Beaver, owned by John Jacob Astor, of this city, and laden with a very valuable cargo, and the brig Canton, of Salem, have been seized at Talcahuana, and their crews thrown into prison, for being engaged in a trade which the mother country has considered unlawful, but which the patriots, in possession, had declared free. For trading with these ports American vessels are seized and their crews imprisoned, while British vessels are permitted to trade unmolested. Against such an act of hostility, the governor of Chili, very spiritedly has, as will be seen, entered his protest, as a breach of the law of nations, in doing violence to a neutral port. The particulars are transmitted to congress, and will probably soon appear in an official form.

[*Translated for the N. York Even. Post.*]

From the Buenos Ayres Gazette, of the 3d of Jan. last, we have translated an account, published in the Chili Gazette of Saturday the 6th of Dec. 1817. from the territorial quarter on Conception, on the 22d of Nov 1817.

Violation of the law of Nations—By Mr. Francis Reeves, second supercargo of the American ship Beaver, which sailed from the port of New York, destined to the North West Coast, the island of Japan, and Canton, who took refuge in this place the 15th instant, after having escaped with five other individuals from the prison of Talcahuana, where they were confined, we have been informed, that having approached this port in search of water, wood and fresh provision, after a voyage of 160 days, the above ship was surprised in the vicinity of Quinquinire by an armed force, who took possession of her, and immediately began to search and plunder whatever they could lay their hands upon, without sparing the clothes, papers, and ther necessaries of the officers of that ships and after having committed the greatest excesses and insulted them in the grossest manner, carried her to Talcahuana, when having stripped the vessel of her sails, and whatever was necessary to enable her to continue her voyage, they landed her crew, and adopted against them every hostile measure which nations the most inimical use against one another, endangering, at the same time, the vessel and all her cargo, which according to the invoice price in the U. States amounted to more than two hundred thousand dollars.

They behaved in the same manner to the American brig Canton, from Salem, treating in the like manner Mr. James Janison, and her supercargo, Mr. Coffin, who touched at the same port 20 days before the ship Beaver, as she was on her route to the North West Coast and China, which, with her cargo worth eighty thousand dollars in goods, was declared by the governor of Talcahuana a good and lawful prize—they also robbed him of eighty thousand hard dollars which he was conveying to China, and as Mr Reeves thinks, they will take both vessels immediately to Puerto Callo.

Such proceedings show, in the clearest light, the perfidy and barbarity of our enemies, who, without paying the least respect to the individuals of a neutral nation, have violated, in the most scandalous manner, the rights, laws, and conduct, hitherto respected by even the most uncivilized. I doubt not when the government to which those injured belong, shall know and be informed of the injuries and insults heaped upon them, she will make them a subject of the best founded complaint, and will exercise her utmost energy and zeal to revenge such an insult, and obtain a satisfaction such as the case requires. I am also persuaded, that other nations, at the mere relation of such an event, will be struck with horror, and recognize the Spanish character, in these respects, as stimulated and actuated solely by a spirit of robbery, a contempt for her equals, and a thirst for pillage, without an idea of repairing the inconveniences and evils, which a conduct so unheard of and reprobate, must occasion.

The above mentioned Mr. Reeves, influenced by the most just resentment, and this day placed amongst us in perfect liberty communicates the occurence related, as well to his government as to the owners of the property embargoed, and when an event of such a class is divulged, the whole world will acknowledge the just motives which have induced Chili to separate from and detest those Spaniards from whom, if even neutral nations deserve no respect, much less can we expect it, who are now held up and stigmatised as rebels and traitors—All which I communicate to your excellencies for your information and government—God preserve your excellencies many years—Directoral quarter of Conception, Nov. 22d, 1817.

BERNARDO O'HIGGINS.

To the delegation of the Supreme Junta.

Extract of a letter from St. Jago de Chili, dated Dec. 13, 1817.

"The British ship Portsea, Nichols, master, from Calcutta, via Port Jackson, with a cargo of 1200 bales piece goods, and value about 300,000 dollars, has just arrived at Valparaiso.

It is now ascertained that it was the ship Beaver, Capt. Cleavland, that was captured off Valparaiso in October, and it is said that the supercargo, with five of the seamen, had escaped from Talcahuana, and arrived at Conception; that the captain and crew were in prison, and the ship condemned. The brig Canton, of Salem, (M. Coffin, supercargo) is also said to have been taken; the master and crew in confinement at Talcahuana, and the property confiscated. What a pity that an American frigate is not here, to ascertain whether our countrymen are justly doomed to the horrors of a Spanish prison or not.

Nov. 6 The British frigate Amphion, Com. Bowles, sailed from Lima on the 3d of November, to demand the restitution of a British vessel detained there."

An extract of a letter from Buenos Ayres, dated January 22.

It is not easy, my friend, to describe the extreme of despotism which this unhappy country suffers at this moment—If the congress that take a title of sovereign (the two thirds of the members are clergymen and friars) had changed their name of *director*, given to Pueyrredon, for that of *dictator*, his cruelties and violations would be more tolerable; but under the shadow of a statute or a monetary constitution, which only serves as fatal letters for the uncautious, are executed the most terrible scenes of proscription and blood, without observing any kind of formule or representation—this is an unpardonable evil. It must not be believed that all this is executed against the enemies of liberty; on the contrary, it is against the best patriots, and against those that have rendered their country the most recommendable services during the actual revolution—for witness of this truth are all those persons that are at present in your country, wandering, and in the greatest misery; and those that are on the frontiers of the Indians—even the foreigners—are not exempt from the like arbitrary proceedings. While I am writing this letter, though shut up in my room, I tremble, and am afraid to be seen by some spy and secret delators that are kept with a salary; and in this important line of business Pueyrredon expends thirty thousand dollars annually. From the government paper of Havana of February 18.

Account of Don Manuel Arcon, an inhabitant of Nassau, New Providence, a native of the city of Malaga, and residing in the place of Holguin, sent to this place for publication.

On the 19th of January two sailors appeared, spreading the rumor that they had deserted the night before from a piratical corsair, which lay at anchor in the harbor of Padre; and this report reaching the ears of Don Jose Augustin Rodriguez, he went to the house of the Signor commandant of marine, Don Jose Fornaris, to consult on the most proper means to arm a vessel in order to capture the said pirate, and having resolved to freight the only vessel suitable for the purpose that was in the harbor, her owner agreed to let her for $2000. The commandant mustered together the men that were necessary, and on the 21st the vessel set sail, well armed, carrying 34 men; and being on the 22d at day-break off Pesquero Nuevo, a schooner was seen coming out from the harbor of Naraje, with sail and oars, in chase of us, and the wind being rather slack, she sent her boat with five men, and seeing it approach, we tacked in search of it. Said boat fired at us, and we returned the fire: soon after we captured it and the five men. We afterwards came up to the piratical corsair, fired at her, having first hoisted the king's flag, at the sight of which she ran and made the shore at Pesquero Nuevo, where 16 persons abandoned her, with a part of the muskets, money, &c. 4 of whom were soon overtaken, among them her captain, Antonio Marino, the people on land having assisted us in this pursuit. We drew off the corsai at 12 o'clock, and proceeded to the harbor Real de Gibara, where the government sent men to discover and arrest the runaways. The same afternoon 5 were seized, 3 on the 23d, and 3 more on the 24th—the 2 remaining are closely pursued. We cannot praise sufficiently the activity and zeal manifested by the commandant of marine, who accompanied all the persons who attended voluntarily as far as the harbor Real de Gibara, and remained there until our return with the prize.

Names of the pirates taken.

Marino, captain; Juan Gallardo, lieutenant; Ramon Ceranio, boatswain; and the following seamen: Francisco Ballula, Jose Gonzulez, Benito Nandis, Leandro Basulto, Pedro Fuentes, Juan Monfantez, Juan Antonio Lopez, Miguel Ganzalez, Juan de Avel, Andres Gallego, Rafael Alvara, Dionisio Fernandez, Francisco Fuentes, negro, Henrique Mors, do. James Kennedy & Son,

RESPECTFULLY inform the public that they have just received from

LEE'S MEDICINE STORE,

No. 46, Maiden lane, New-York a fresh supply of the following valuable MEDICINES:

Hamilton's Worm destroying Lozenges,

Which have within sixteen years past cured an immense number of persons of both sexes of every age and in every situation, of various dangerous complaints arising from WORMS, and from obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of as operating with violence; on the contrary a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent & is so mild in its operation that it cannot injure the most delicate pregnant lady or the tenderest infant of a week old should no worms exist in the body; but will without pain or griping cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

Description of Worms, and the symptoms by which they are known.

Worms which infest the human body are chiefly of four kinds viz.—The Teres or large round worm; the Ascarides or small maw-worm; the Cucurbitine or short flat white worm; and lastly, the Tænia or tape-worm, so called from its resemblance to tape. This is often many yards long and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food and sometimes voracious; purging with slimy and fœtid stools; vomiting; large and hard belly; pains and sickness at the stomach; pains in the head and thighs and lowness of spirits; slow fever with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

The Restorative Powder for the Teeth and Gums.

For the prevention and cure of BILIOUS AND MALIGNANT FEVERS is recommended

HAHN'S ANTI-BILIOUS PILLS

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age.

They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance: they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficatious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

Hamilton's Elixir,

A sovereign remedy for colds, obstinate coughs, asthmas, sore throats, catarrhs, and approaching consumptions.—To parents who have children afflicted with the *HOOPING COUGH*, this discovery is of the first magnitude, as it affords immediate relief, checks the progress, and in a short time entirely removes the most cruel disorders to which children are liable. The Elixir is perfectly agreeable, and the dose so small that no difficulty arises in taking it.

Hamilton's Grand Restorative,

Is recommended as an invaluable medicine for the speedy relief and permanent cure of

Nervous Disorders	Violent cramps in the stomach and back
Consumptions	
Lowness of spirits	
Loss of appetite	Indigestion
Impurity of b'ood	Melancholy
Hysterical affection	Gout in the stomach
Inward weaknesses and debility	Pains in the limbs
	Relaxations, etc.

Hamilton's Essence and Extract of Mustard.

A safe and effectual remedy for acute and chronic rheumatism, gout, rheumatic gout, palsy, lumbago, numbness, white swellings, chilblains, sprains, bruises, pain in the face and neck, etc. etc.

Lee's Ointment for the Itch.

Warranted an infallible remedy at one application, may be used with perfect safety by pregnant women, or on infants a week old, not containing a particle of mercury or any dangerous ingredient whatever, and not accompanied with that tormenting smart which attends the application of other remedies.

Hahn's true & genuine German Corn Plaister.

An infallible remedy for corns, speedily removing them root and branch, without giving any pain.

The Genuine Persian Lotion,

So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellent minerals, the basis of other lotions, and of unparalleled efficacy in removing blemishes of the face and skin, freckles, pimples, inflamatory redness, scurfs, tetters, ringworms, sunburns, prickly heat, &c.

Hahn's genuine Eye Water,

A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness or of accident.

Tooth Ache Drops.

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

Lee's Infallible Ague and Fever Drops

For the cure of agues, remittent and intermittent fevers.

☞ At the place of sale pamphlets may be had gratis, describing cures performed by the above medicines; the number, importance and respectability of which, fully justify every article of this advertisement.
